

SCIENCE ON STAGE EUROPE

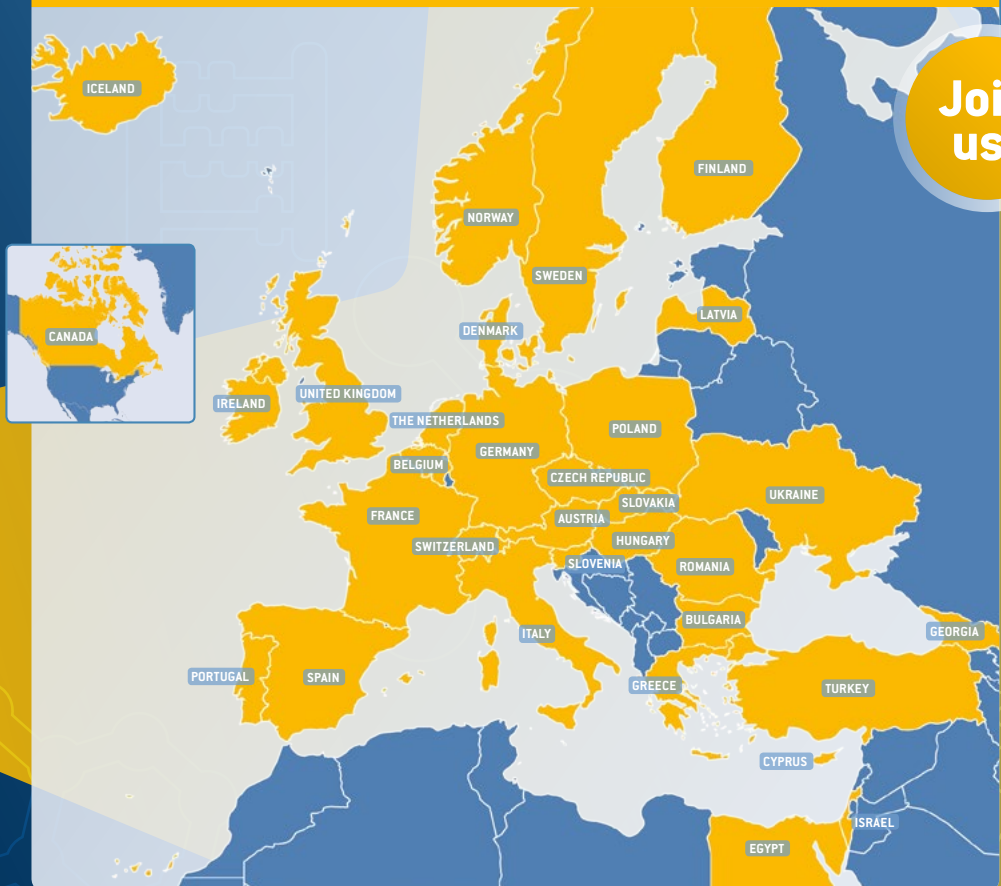

The European Science Teachers' Network

From teachers
for teachers!

Science on Stage Europe brings together science teachers from across Europe to exchange best practice and teaching ideas and concepts with passionate colleagues from 30 countries. Science on Stage Europe believes that the best way to improve science teaching and to encourage more schoolchildren to consider a career in science or engineering is to motivate and inform their teachers. The non-profit organisation was founded in 2000 and reaches 100,000 teachers Europe-wide.

The countries involved are:

Activities

Science on Stage festival

Every two years Science on Stage Europe organises Europe's biggest science teaching festival. Teachers from all over Europe exchange their ideas, projects and methods at stands, in workshops and on stage. These ideas are afterwards spread throughout Europe via follow-up activities:

Teacher Training

The Science on Stage countries organise teacher training events involving an international project and a national festival project.

International Projects

Working groups of international teachers develop materials for their colleagues in Europe. Science on Stage publishes these concepts, which can be ordered or downloaded for free.

Travel Scholarships

Teachers from different countries who participated in the festival can meet again to continue their work and to develop joint projects.

Teaching materials

Science on Stage publishes teaching materials developed by teachers for teachers in different languages and spreads them across Europe.

Science on Stage Festival 2017

The next European Science on Stage festival will take place from 29 June till 2 July 2017 at Kölcsey Convention Centre in Debrecen, Hungary. 450 science teachers from across Europe will present extraordinary teaching ideas, workshops and performances. Participants will be chosen in national events in the 30 member countries.

Science on Stage Europe e.V.

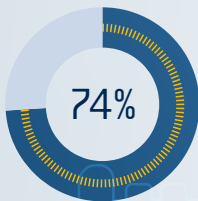

Science on Stage inspires teachers, but how exactly do teachers profit from taking part?

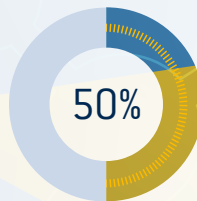

69% of the teachers agreed that participation increased their **motivation and joy in teaching.**

79% of participating teachers **have incorporated ideas that were presented at Science on Stage events into their own lessons.**

74% of participating teachers **appreciate the opportunity to exchange experiences with colleagues.**

50% of participating teachers **have incorporated ideas, they had acquired through Science on Stage events into teacher training in their home countries and thus functioned as multipliers.**

Evaluation study (2008-2012) carried out by the Humboldt-Universität zu Berlin.

Supporters

Science on Stage Europe is mainly supported by the federation of German employers' associations in the metal and electrical engineering industries (GESAMTMETALL) with its initiative think ING.
