TEACHERS

Videos to experiment  
and explain

# Save our nature – Let's explore together

**Discover, research, understand!**

Free teaching materials & experiments – easy to implement

# Discover – Research –

Do you **teach children up to the age of 12?** Are you looking for **exciting materials on the topics of STEM and the environment?** Our simple experiments and free, editable worksheets give scientific topics **a real life everyday context!**

These teaching modules have been developed by teachers from nine countries together with the non-profit educational initiative Science on Stage Germany – **practical, inclusive and with an inquiry based approach.**

**Try it out!**

## Water Works

From the water cycle to water protection

## Eco Motion

Exploring sustainable energy sources

## What our materials offer

Hands-on examples & concrete experiments with instructions

Experiment and explanatory videos

Editable worksheets

# Understand

## Climate Action

How climate change is changing land, water and ice

## Flora Focus

Exploring and learning from plants

## Waste to Worth

Compost and the use of natural materials

Information on  
career orientation

Differentiated  
teaching approach

## Teaching materials

Science on Stage offers free teaching materials developed by European teachers for teachers on topics such as language support and experimentation or AI in science lessons. You can find them at:
